Supply Chain | Operations | Analytics

MSc student in Systems Engineering and Engineering Management with a Bachelor of Management in Logistics Management. Seeking graduate roles in supply chain, operations or business analytics, with experience in quantitative research, project delivery and campus operations.

EDUCATION

The Chinese University of Hong Kong 2026 - Present

MSc in Systems Engineering and Engineering Management

Southeast University 2022 - 2026

Bachelor of Management in Logistics Management, School of Economics and Management

- Final GPA: **3.57/4.0**; ranked **6th** in the undergraduate cohort.

Nanyang Technological University 2024

Summer Programme - Foundation of Information Analytics (A-)

RELEVANT COURSEWORK

Game Theory Strategic decision-making	**97**	Management Information Systems Digital business systems	**95**
Logistics System Modelling & Simulation FlexSim and process optimisation	**94**	Business Intelligence & Data Mining Data cleaning and clustering	**93**
Logistics System Planning & Design Facilities and network design	**92**	Operations Research Optimisation and decision models	**91**

SELECTED PROJECTS

Urban Drone Route Planning and Optimisation Jun 2025 - May 2026

Project Lead | Provincial Research Programme & Undergraduate Thesis

- Led a four-member team from research design and task allocation through analysis and final delivery, turning ten urban map segments into 100 route-planning scenarios.
- Compared route alternatives by distance, estimated energy use and processing time, and developed the work into an undergraduate thesis.

Digital Technologies and Platforms in Logistics Service Ecosystems 2023 - 2024

Research Team Member, University SRTP

- Reviewed digital technologies, platform ecosystems and supply-chain transformation, and supported the initial conceptual model.

LEADERSHIP AND SERVICE

Vice President, Science and Technology Association 2024 - 2025

School of Economics and Management, Southeast University

- Managed recruitment, annual planning, internal operations and finances; helped deliver 20+ university events for 1,000+ students and staff.

Three-Star Volunteer 2022 - 2026

Southeast University

- Completed **237.9 verified volunteer hours** across disability support, elder care and hospital-service programmes.

Member, Incoming Student Home-Visit Team 2023

Southeast University

- Supported 200+ incoming students with admissions and campus-life questions, and joined six home visits.

SKILLS AND RECOGNITION

Operations	Supply chain, logistics, process analysis, project coordination, FlexSim
Analytics	Business intelligence, data analysis, discrete-event simulation, conceptual modelling
Excel	XLOOKUP, dynamic arrays, conditional statistics and interactive charts
Languages	IELTS 6.5; CET-4 563; CET-6 489
Recognition	National Scholarship (2025); Outstanding Communist Youth League Member; Three-Star Volunteer
